COURIER readers going away for the summer can have the paper sent to their new address, without extra charge, by notifying the office.

The man who contemplates writing poetry should first learn the rudiments of versification.

The new German emperor must be a companionable sort of a young man. The artist at the other end of the cable already refers to him as Billy.

Whenever you read "Advice to Novel Writers" by a successful writer of fiction you want to do with it like young. Gould does with his father's "tips"—copper them.

JOHN M. THURSTON may not be a very brainy young man, but his speech on taking the chair at the Chicago convention was one of the finest pieces of rhetoric we have ever read.

It is as we feared. Charles Dickens, the younger, is going to write a book on America. If it will prove of no more pecuniary benefit than his lectures here, our revenge will be complete.

So many workers in the newspaper field object to being called journalists, and their work journalism, that we would just like to be informed why in the world these terms were brought into existence and what they do mean.

It is rumored that a new democratic evening paper will be started within a short time after the Democrat changes hands and politics. It has been amply demonstrated in the past that the democrats of the city cannot support an organ here, and however desirable it is to have one, the projectors can depend upon it that they will have to go down into their pockets quite deeply each month to keep it going.

The midsummer meeting of the Nebraska Press Association will be held at the Chautauqua grounds at Crete, Thursday, July 5th. Hon. J. S. Clarkson, of the Des Moines Register will be present and address the association; at the evening session five delegates will be elected to the National Editorial Association meeting next November, the committee on legislation will report, and addresses on pertinent topics by prominent members of the press of the state be listened to.

The Omaha Bee celebrated its seventeenth anniversary Sunday. It is not necessary for us to say what the Bee is; everybody knows it to be the most fearless, earnest and newsworthy paper published in the west. Mr. Rosewater has had many difficulties to surmount, many influential enemies whose enmity he has steadily fought to overcome, but with a courage that has won him equally as many friends, he has built up one of the best-paying newspapers in the country, as well as one of the most influential. It is a superb monument to perseverance and fearlessness.

The State Democrat has been sold by Mr. J. D. Calhoun to Messrs. Cox, Bushnell & Fairbrother, who will take possession the first of July. The name will be changed to the Daily Call, and in politics it will be independent-republican. The new proprietors are all newspaper men of experience, and propose making the paper the representative evening paper of the South Platte country. There is a splendid field for such an enterprise, and the Courier predicts the Call will fill it perfectly. Mr. Calhoun will probably take a rest for some time although it is whispered that he has been offered the position of editor-in-chief of the Omaha Herald.

The COURIER is glad to see the teamsters and laborers of the city organize. When men like Bills, who has the contract for the street grading, attempt to run in cheap "diago" labor it is time to organize. The new union demand nothing exorbitant, only that they should be paid living wages and be protected against the competition of a species of pauper labor. There are some men whose make up requires them to have a stone house fall upon them before they take a tumble; and if the contractor proposes, as reported on good authority, to import these "diagos," public sentiment will take the place of the stone house with graceful facility.

We fail to see why the city council does not take positive action regarding the water works. It is acknowledged by all who are conversant with the matter, that so long as the works are kept where they are, pure water is impossible. The people of this city want pure water. They must have it. To get it the water works must be removed. There fore remove them. This question has been discussed pro and con, for over a year, and during that time thousands of dollars worth of damage has been done by the action of the salt on the boilers, etc. The time has come for action. If the members of the city council fail to see the clear path of duty before them, call a mass meeting and point it out to them. What do you say, citizens of Lincoln?

THE Nebraska Chautauqua at Crete is deservedly one of the great institutions of the west. The coming season will have a program that will rival in some degree the attractions at Chautauqua Lake. Judge T. M. Cooley has assumed the management that he will be present on lawyer's day, and all the notables will be present that have been expected, with one exception, that of Rev. B. Clark, D. D. of England. His place will probably be supplied by Dr. Dunning, which is a sufficient guarantee of a delightful entertainment. The other speakers will be Senator Manderson, Dr. Talnage, Dr. Hurlburt, Hon. J. S. Clarkson, Prof. Holmes, Prof. Palmer, and Prof. Conkock.

### Base Ball Notes.

The cripples of the Omaha team are recovering.

Joe Herr is now covering short for the St. Louis Browns.

Galvin has pitched but two winning games for Pittsburgh so far.

Chicago returns home in the lead, and will probably maintain it.

The Detroit and Boston are crowding Chicago for first place.

Des Moines has dropped from first place in the league, St. Paul now leading.

Healy has been released by the Omaha club, and gone back to farming.

The St. Louis Whites are now in last place. Wonder how much Vandy wants now!

Tebanu is doing some good work for Minneapolis, but hasn't got his eye on the ball yet.

The Denver base ball club was disbanded this week. The Western league is very shaky.

The Domestic go out to Yorkon the Fourth to give the boys some pointers on how to play the national game.

Bader, Gemm and Krohneyer have signed with Wichita, which club succeeds Denver in the Western league.

The Detroit are in a bad way. Brothers has a split hand, Hanlon has "Charlie Horse," and one or two other men are injured.

The work of the Chicago Maroons has been surprising to those who supposed they had correctly gauged them by their first work.

Billy Hart is not doing as good pitching this year as last. Bob Barr appears to be the leading pitcher of the International League.

That there are more prett faces and more handsome costumes seen on the streets of Lincoln this year than ever before.

That a little less heat would be more comfortable.

That base ball is on the decline, especially in the west.

That the University grounds are as popular for lawn tennis games as the Capitol grounds.

That there is a great deal of kicking about the way the Capitol grounds are being improved. It is, of course, hard to say how things will look when finished, but the way the driveways are being cut is not much admired.

That Mr. —, will be our next president.

That lively times were had by the Nebraska delegation to Chicago.

That General McBride told a new story on the way to Chicago.

That anyone wishing a conservative opinion on the manner democrats support their party organs can secure it by calling on editor Calhoun.

That the Lincoln traveling men can be relied upon to crush to earth the Hastings "drummer boys" in the coming game of base ball between the two nines.

That Miss O. L. and Mr. B. S. fell in the water at Cushman last Tuesday!

That we saw Mr. Mahler play ball and get one of his optics colored?

There is no more beautiful place than Cushman, for an "outing".

That cedar blocks are being put down in a catch-as-can style.

### The Iron Duke to his Soldiers

"Do your duty," were the words of Lord Wellington to his soldiers just before the battle of Waterloo and history tells us how well they obeyed. The same advice might properly be given to every living man at this time. There are many men who would do their whole duty in time of war or great need, but who sadly neglect it in times of peace, they would gladly risk their lives for their country, but when there is no such great occasion, neglect their plain simple duties to their God, their families and themselves. It is not for want of honor nor because they do not love their families, but from pure neglect; as an instance, statistics compiled by the national authorities show that more deaths result from bowel complaints than any other one cause, except consumption, yet not more than one family in six are provided with medicines that will relieve or cure the diseases. It is the duty of every man to look after these small matters, and protect their families, and they are certainly at least, guilty of criminal carelessness if they neglect to do so. No one can plead poverty in this instance, as the best remedy there is for the purpose only costs but 25 cents. The article we refer to is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a certain cure for cramps, colic, cholera morbus, dysentery, diarrhoea, bloody flux, cholera infantum, and bowel complaint in all its forms. No family can afford to be without it during the summer months as great suffering and even life may be saved by it before a physician could be summoned or medicine procured. Do not delay, but procure it at once, before it is forgotten.

### How is it with you?

Do you relish your food? Is your digestion good? Are your bowels regular? Do you have a tired or languid feeling? Is your tongue coated? Does your back ache? Is your skin sallow? If your system is in a bad condition take St. Patrick's Pills, they will aid your digestion, improve your appetite, regulate your bowels, correct your bilious disorder and make you feel like a new person.

### TETTER AND SALT-RHEUM.

The itching and smarting of these diseases causes almost perpetual misery, but that can be relieved almost instantly by applying Chamberlain's Eye and Skin Ointment, and its continued application has cured a great many bad cases. Try a 25 cent box and you will be surprised as well as delighted with its effect.

Sold by W. J. Turner.
